CARE-SIT¹

DISCOVER THE CARE-SIT CUSHION

Frontier Medical are delighted to announce the launch of the new Care-Sit Cushion.

Care-Sit follows on from the success of Repose Contur, a product designed specifically for riser recliner chairs both in the hospital or community.

NEW Repose Care-Sit is available in two widths and the Care-Sit has been developed to interface

with 3 key seating products, wheelchairs, static chairs & nursing home lounge chairs.

Care-Sit brings together a host of new & unique features which meet all pressure area care requirements along with infection control and patient needs.

COST EFFECTIVE, DURABLE & REUSABLE

Suitable for use in the home, care homes and hospitals, Care-Sit offers a pressure redistribution design has been shown to be clinically and cost effective.

Care-Sit can instantly transform static chairs of all types and sizes as well as general purpose wheelchairs to provide a cost-effective solution for pressure ulcer prevention and treatment.

INDEPENDENT BACK & SEAT SUPPORT

Care-Sit is supplied as one cushion divided into two sections for independent back and seat support. This ensures optimal pressure redistribution across all pressure points for maximum comfort and care.

The seat features narrow pressure redistributing air cell tubes surrounded on each side by a wider air cell tube for support.

ADJUSTS TO FIT CHAIRS OF ALL SIZES

Care-Sit is available in two widths (400mm & 450mm) and is supplied with multi-adjustable straps fitted to the rear of the cover. The cushion can be quickly and easily secured to static chairs of all types and sizes, as well as general purpose wheelchairs.
